About the Course

The course is aimed at practising surgeons and registrars. Both plastic and ENT surgeons are welcome.

The sessions are both lectures and dissection. The morning is devoted to approach and the afternoon to refinement.

Our invited guest is Stephan Floreani. He is based in Adelaide with appointments at the Royal Adelaide, Queen Elizabeth and Women's and Children's Hospitals. As a leader of Australian Rhinoplasty, he regularly lectures at the annual Chicago "Advances in Rhinoplasty" Conference.

Application will be made to the RACS for accreditation.

Areas to be covered

1. Anatomy and anatomical variations relevant to rhinoplastic surgery
2. Instrumentation required in rhinoplasty
3. Preparation and pre-op planning
4. Facial aesthetics
5. Open and closed rhinoplasty exposure
6. Osteotomy techniques in rhinoplasty
7. Nasal tip surgery
8. Endoscopic turbinoplasty and maintaining the nasal airway
9. Post-operative care and management

Faculty

George Marcells is the President of the Australasian Academy of Facial Plastic Surgery and director of Bondi Junction Private Hospital. He is a US board exam certified facial plastic surgeon and has extensive experience in rhinoplasty.

Tobias Pincock has completed a certified US facial plastic fellowship having worked with international leaders in open rhinoplastic techniques.

Elias Moisis is Chair of the Department of Plastic and Reconstructive Surgery at St Vincent's Hospital. He and James Southwell-Keely have a sub-specialty interest in nasal reconstruction.

Paul Gerarchi is board exam certified with the American Academy of Facial Plastic Surgery. He is in private practice, The Face Institute and specialises in functional, reconstructive and aesthetic surgery of the nose and face.

Richard Harvey is a dual fellowship trained rhinologist with a specialist nose, sinus and skull base practice. He also serves on the editorial boards for American Journal of Rhinology and Rhinology Journal.

Dr Sim Choroome is a Sydney based facial plastic surgeon with American Board training based in Los Angeles with a research focus on rhinoplastic techniques.

Dr Floreani is an Adelaide based surgeon and one of Australia's leading rhinoplasty surgeons. He continues to evolve current techniques and teaches regularly in North America.

All members of the Faculty have wide experience in the management of cosmetic and functional nasal surgery including rhinoplasty techniques. They are actively involved in teaching and research.
